

COSERA

GROB

100 YEARS OF MANUFACTURING EXPERIENCE IN ONE SYSTEM

*The MES / MOM SYSTEM by GROB as the
Control System for the Entire Production Process*

Your advantages at a glance!

- ⊕ **Holistic control** of the entire shop floor
- ⊕ **Security ensured** by SAP security standards
- ⊕ **Customizable** to customer-specific needs
- ⊕ **Readable and adaptable** software code
- ⊕ **Real-time transparency** in production
- ⊕ In-depth **machine connectivity**
- ⊕ **Mobile availability** in the plant
- ⊕ **Installation at the customer's site** – not a cloud solution
- ⊕ **Seamless integration into SAP** without additional databases

COSERA

Connected System to Execute, Record and Automate

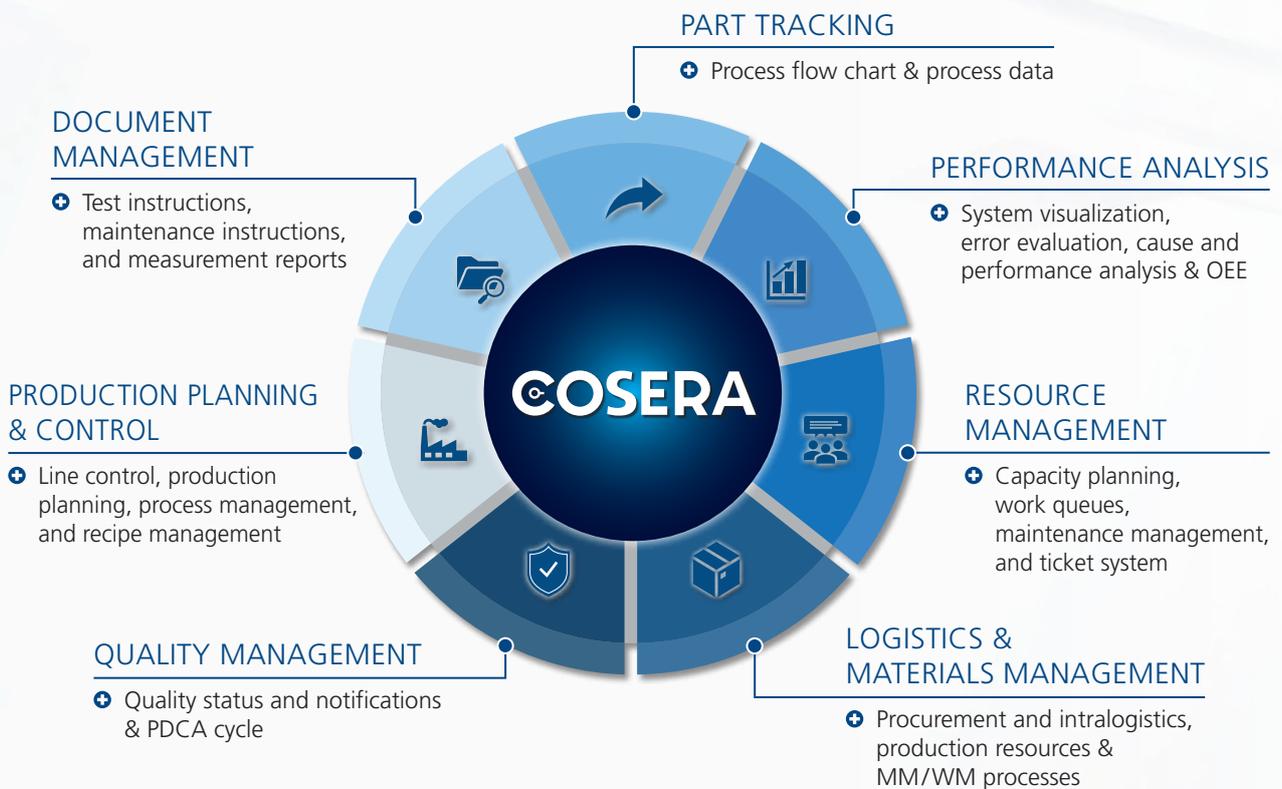

Well thought-out. Robust. Future-proof.

DIGITALIZATION by GROB!

Experience from our own production!

- + Around **60 developers** focusing on industrial digitalization
- + **76 digitalized** production facilities
- + Over **2,500 machines** with COSERA software
- + **100 years** of in-depth process and machine expertise from our own production

Our references from the MES environment – Proven in industrial practice

COSERA is successfully used by manufacturing companies in the mechanical and plant engineering sector – from medium-sized businesses to large corporations.
